Dial in using your phone:

United States: [+1 \(571\) 317-3122](tel:+15713173122) Access Code: 146-411-709

Agenda

1. Welcome
 - a. Staff Updates
 - b. Introduction of Speakers: Katie Spidalieri and Annie Bennett, Georgetown Climate Center, Katie.Spidalieri@georgetown.edu
2. Georgetown Climate Center Managed Retreat Toolkit Presentation
3. Questions & Answer
4. Introduction to Risk MAP & CTP Discussion
5. Roundtable Discussion

- a. Thoughts on potential Coastal Program engagement with CTP/Risk MAP

Prompt: CSO, FEMA, and NOAA are discussing ways to further develop partnerships between FEMA and Coastal Programs to coordinate support for shared coastal resilience goals. A specific partnership opportunity we are looking for feedback from Coastal Programs on is the **Risk MAP program**, including **Cooperating Technical Partnerships (CTP)**. **Please prepare to briefly let us know during your roundtable update whether your program has the capacity, interest, or ability to pursue new Risk MAP and CTP engagement with your FEMA region.** Attached is short document outlining the services and purpose of both programs. Your feedback will help us prioritize our work on this issue. We welcome any and all input – please feel free to reach out separately by email as needed.

- b. Coastal Program Updates
6. Next Call: **October 13, 2020** 3:00 PM ET | 2:00 PM CT | 12:00 PM PT | 9:00 AM HST
